

## TABLE OF CONTENTS

| <u>FOP or TM</u>  | <u>Champion</u>        |
|---|------------------------|
| AASHTO R 60   |                        |
| Sampling Freshly Mixed Concrete .....   | Misty Miner, MDT       |
| AASHTO R 79   |                        |
| Vacuum Drying Compacted Asphalt Specimens.....  | Misty Miner, MDT       |
| AASHTO T 84   |                        |
| Specific Gravity and Absorption of Fine Aggregate .....   | Lori Copeland, ITD     |
| AASHTO T 89,  |                        |
| Determining the Liquid Limit of Soils.....  | Dan Gettman, AKDOT     |
| AASHTO T 90   |                        |
| Determining the Plastic Limit and Plasticity<br>Index of Soils .....  | Dan Gettman, AKDOT     |
| AASHTO T 217  |                        |
| Determination of Moisture in Soils by Means of<br>Calcium Carbide Gas Pressure Moisture Tester .....                          | Sean Parker, ODOT      |
| AASHTO T 304  |                        |
| Uncompacted Void Content of<br>Fine Aggregate.....  | Mark Willoughby, WSDOT |
| AASHTO T 331  |                        |
| Bulk Specific Gravity ( $G_{mb}$ ) and Density of<br>Compacted Asphalt Mixtures Using Automatic<br>Vacuum Sealing Method..... | Mark Willoughby, WSDOT |
| WAQTC TM 14   |                        |
| Asphalt Mixture Laboratory Prepared Test<br>Specimen.....   | Sean Parker, ODOT      |
| WAQTC TM 15   |                        |
| Laboratory Theoretical Maximum Dry Density of<br>Granular Soil and Soil/Aggregate.....  | Mark Willoughby, WSDOT |
| WAQTC TM 16   |                        |
| Determining the Percentage of Flat and Elongated<br>Particles in Coarse Aggregate.....  | Sean Parker, ODOT      |

WAQTC TM 17

Determination of Theoretical Maximum Dry  
Density of Granular Soil and Soil/Aggregate  
for Use as a Density Standard.....Mark Willoughby, WSDOT
